Recommendations 😊 - English

These aren't rules but good tips to help you make a good tutorial.

Choosing a trick

Make sure it's not already on diabolotutorials.com – if you're not sure whether it is, just email us at info@diabolotutorials.com

Think of a trick that will be interesting for the diabolo community and you can do REALLY well. It's hard to make a good tutorial if you haven't already mastered the trick.

Setting up the camera

Zoom in. Position the camera and yourself so that you can see some ground in front of you and about 1-2 metres above your head.

Have a nice, clear background. Don't have too many colours or objects in the background that will make it hard to see the string or diabolo

No movement in the background. If there are people walking around or cars moving it's very distracting for the viewers watching the video. Trees moving in the wind is ok, however if you're doing it on a really windy day, it might be too distracting.

Filming

Practice the trick many times before you film it – make sure you know it really well and can do it easily

Film the trick a few times from different angles: front, sides, close up etc. It really depends on whether you think the angle would be helpful to someone watching.

Leave a pause before and after you do the trick (don't do any other tricks as this will make it confusing for someone watching).

Try to keep the diabolos and sticks inside the screen/viewing area

Extra things to film

Skills or tricks that we would assume the diaboloidist will need to be able to learn your trick (but that you won't teach in this tutorial) .

Extra drills or skills that a diaboloidist can practice to help master your trick

Common mistakes that people may make with this trick

Anything else that you think might help someone learn this trick

Editing Software

There are many editing tools available. If you have never used them before, you should check out these:

<https://filmora.wondershare.com/video-editor/free-video-editing-software-mac.html>

Editing

Show the actual trick a few times at the beginning of the video (so the audience will know what they're going to learn).

Provide step by step instructions (verbal and/or written)

Tutorial video no longer than 15 minutes

Edit out video that isn't the actual trick (things like speeding up the diabolo, moving into place or just talking to the screen)

5.1 每位參賽者，最多投稿3支教學影片

拍攝建議：

以下建議僅供參考，並不是規則

動作的選擇

請勿必確認這個動作還沒有被收錄到「diabolotutorials.com」。
如果不確定，請將動作email給我們(info@diabolotutorials.com)

可以想一下現在大家最有興趣的動作是什麼。
確定你已經很熟練這個動作了。(如果你還沒有很熟，也很難做出好的教學。)

相機設定

畫面：

設定在頭以上1到2公尺，讓動作全貌被看得清楚。

背景：

讓線和扯鈴可以清楚被看見，選一個乾淨的背景，避免太花俏、太雜亂。

靜止的背景：走動的人、車都會讓看教學的人分心。微風搖擺的樹可以接受，但狂風下的教學，大家還是會分心啦！

錄影

錄影之前，把動作練的很熟，確定你可以輕鬆的示範動作。

同時從不同的角度錄影：前方、側面、近拍...。以「學習者」最同易看懂的方向去想一想。

在「主要教學動作」之前，稍微停頓一下。(避免做太多無關的動作，會混淆學生的學習。)

試著讓扯鈴和線都在畫面之內。

其它相關的動作

基本能力：哪些動作是這個動作的基本功。(但影片中不需要教學)

練習過程：如何練習，可以加速這個動作的學習。

常見錯誤：這個動作可能會出現的問題。

其它：有關這個動作任何有幫助的訊息。

剪輯軟體

剪輯軟體很多種，如果你都沒有用過，以下提供一些方向：

Windows PC

Windows Movie Maker:

<http://www.windows-movie-maker.org/tw-hk/>

Apple Mac

iMovie:

Comes with every new Max OS X

https://www.youtube.com/results?search_query=imovie+maker+tutorial

其它 Mac 軟體:

<https://filmora.wondershare.com/video-editor/free-video-editing-software-mac.html>

剪輯

影片一開始，先示範幾次動作，觀眾才會知道要學什麼。

提供分解的教學步驟，一步一步帶大家學會(口語或是文字皆可)

影片長度不要超過15分鐘

拿掉動作不相關的影片(加速的過程、走去練習的路上、對著螢幕說話)
